

National Pharmacovigilance week celebration
17th -23rd September 2022

Organized by ADR Monitoring Centre, Department of Pharmacology, Dr.RMLIMS, Lucknow

The National Pharmacovigilance week (17 September-23 September 2022) was celebrated at the ADR Monitoring Centre (AMC) of Dr. Ram Manohar Lohia Institute of Medical Sciences, Lucknow. Various sensitization lectures regarding awareness for reporting Adverse Drug Reactions were organized by the Department of Pharmacology, Dr. RMLIMS, Lucknow, for creating awareness among all health care professionals including Doctors, Nurses, and other paramedical staff at Dr. RMLIMS, Lucknow.

Pamphlets both in Hindi as well as English were being circulated among the patients who can also directly report the ADRs, as the theme for this year Pharmacovigilance week is “Encouraging Reporting of ADRs by Patients”. Dr. Atul Jain, Prof. & Head, Department of Pharmacology who is also the AMC Coordinator for this national programme told the importance of reporting ADRs, that based on the reports send from AMC to National Coordination Centre, IPC Ghaziabad under Minister of MoHFW, Govt. of India, decision are taken regarding safe use of drugs for the patients including banning or withdrawing the drugs causing serious ADRs.

As a part of the Pharmacovigilance week Program, health care staffs were also felicitated for reporting significant number of ADRs and also an awareness walk was organized which was flagged off by Prof. (Dr.) SoniyaNityanand, Director of Dr. RMLIMS, Lucknow. The purpose of this awareness walk was to create awareness regarding Pharmacovigilance& ADRs reporting by all including the Health Care Professionals & the consumers.
